## Ben Browning, President of Falmouth Rotary 1978 - 1979

Ben Browning is a well known citizen of Pendleton County who has now moved to Bourbon County in his retirement years. When I first moved to Pendleton, I joined the Falmouth Rotary and Ben was a member, and we discovered that we tended to see several issues similarly. I remember a most memorable rotary program which Ben presented in the basement of the Christian Church in Falmouth where we were holding our regular meetings at that time. Ben told the story of his son leaving home "to find his way." I shall return to this story later.

Ben was the son of Charles Augustus (Gus) Browning and Florence Gruelle Browning. Ben had a brother and a sister, both older than he. Gus was principal of Butler High School for many years and later served as principal and superintendent of Falmouth City Schools when L. H. Lutes passed on. Ben said that his father believed in teaching responsibility to children and told him and his brother, when Ben was about 13, that they could eat at his table and sleep in his bed but from hence-

forth they were on their own for financial support for spending money, school money, bicycle repairs, etc.. "Get a job," he said, "a paper route or mow grass, or something to make your own way." Ben fondly recalled the memory!

I asked Ben for his three most memorable achievements in his professional career: He said that he had worked for the First National Bank in Falmouth for 30 months as a loan officer when he was tapped by the Board of Directors of Pendleton Federal Savings and Loan as its Executive Vice President and CEO. In 1972, during the first year of his tenure, this institution grew by over a million dol-

Second, he remembered his first bank examination with Mitch Mitchell and how he found several procedures that needed correction. When Mitchell returned the next year, each of them had been corrected. He said that he had a good relation with Mr. Mitchell. Early on Ben told him that he knew he had a job to do, like a milk inspector, and that he would accept his findings and do his

best to comply.

Third, Ben said that in 1983, that a Mr. Cummins, Head of the Supervision of Examiners for FSLIC institutions, from Cincinnati, visited his Bank, and as he was leaving thru the lobby remarked, "If all institutions were run as this one, we wouldn't have any trouble." This was during the time that Savings and Loans institutions were broadening their services and some had gotten into difficulty with unsound business practices.

Patty Ammerman, a teller exclaimed, "Did you hear that? A man of his stature, paying us

such a high compliment?!" Her jaw dropped in astonishment.

Now to Rotary, Ben has a fondness for Falmouth Rotary, stating that his Father also had been a member and was instrumental in getting the Club to send him as a high school student to a meeting at the Lafayette Hotel in Lexington as a junior Rotarian. This experience laid the groundwork for Ben later becoming a member.

Ben said that he enjoyed the camaraderie in Falmouth Rotary and was singularly impressed with its international outreach, particularly its work to abolish polio worldwide.

Returning to the memorable program which Ben presented in the basement of the Christian Church. I note that Ben said that his son, Perry, resisted his guidance when he graduated from PCHS, declaring that he wanted to go to Arizona and find work.

'Okay, Perry," he said, "but

if you get your chestnuts in the fire, do not call me to get them out. I will not send you any money. You are on your own."

Perry left for Sierra Vista on a Monday morning in early June; two months later he called and asked if I would meet him at the bus station in Covington. Ben said, "Of course, but what happened to your car?" "I had no money and no job, so I sold it." Perry admitted Today, Perry is a crew leader

with E. C. Mathews Construction Company in Lexington, and it is his job to put the finishing touches on major construction projects. He is highly esteemed by his company as a skilled and responsible workman. Ben closed by saying,

'Giving children responsibility is often beneficial and rewarding, not only to the child, but also to the parent!"

## **NOTICE**

Please take notice that Duke Energy Kentucky, Inc. has applied to the Kentucky Public Service Commission for approval to revise its Demand Side Management (DSM) rate for electric service and gas service for residential and commercial customers. Duke Energy Kentucky's current monthly DSM rate for residential gas customers is \$0.074572 per hundred cubic feet and for non-residential gas customers is \$0.000000 per hundred cubic feet. Duke Energy Kentucky's current monthly DSM rate for residential electric customers is \$0.001830 per kilowatt-hour and for non-residential customers is \$0.000917 per kilowatt-hour for distribution service and \$0.000078 per kilowatt-hour for transmission service.

Duke Energy Kentucky seeks approval to revise these rates as follows: Duke Energy Kentucky's monthly DSM rate for residential gas customers would decrease to \$0.016509 per hundred cubic feet and for non-residential gas customers would remain at \$0.000000 per hundred cubic feet. Duke Energy Kentucky's monthly DSM rate for residential electric customers would increase to \$0.001854 per kilowatt-hour and for non-residential customers would increase to \$0.001144 per kilowatt-hour for distribution service and would increase to \$0.000108 per kilowatt-hour for transmission service.

The rate contained in this notice is the rate proposed by Duke Energy Kentucky. However, the Public Service Commission may order a rate to be charged that differs from this proposed rate. Such action may result in a rate for consumers other than the rate in this notice. The foregoing rates reflect a proposed increase in electric revenues of approximately \$0.54 million or 0.18% over current total electric revenues and a decrease of \$3.64 million or (2.85)% over current gas revenues.

Any corporation, association, body politic or person may by motion within thirty (30) days after publication or mailing of notice of the proposed rate changes request leave to intervene. The motion shall be submitted to the Public Service Commission, 211 Sower Boulevard, P.O. Box 615, Frankfort, Kentucky 40602, and shall set forth the grounds for the request including the status and interest of the party. Intervenors may obtain copies of the application and testimony by contacting Duke Energy Kentucky through Ms. Kristen Cocanougher, Duke Energy, 139 East Fourth Street, 1212 Main, Cincinnati, Ohio 45201-0960. A copy of the application is also available for public inspection at Duke Energy Kentucky's office at 4580 Olympic Boulevard, Erlanger, Kentucky 41018.

## Pettit plays in the NAIA tournament for Georgetown

It's been seven years since the Georgetown College Tigers' football team has made it to the semifinals of the NAIA tournament and they return this year after defeating St. Francis 26-14 this past weekend.

At the center is PCHS alum, Kyle Pettit who is the starting center and a cornerstone of the offensive line.

"Honestly, it was crazy. Ecstatic is a good word for it. I was excited for my teammates but also focusing on our next opponent." Kyle remarked on how he felt when the horn sounded on Saturday.

The Tigers will have travel to Montana this weekend to play the #2 ranked Carroll College. The two schools have combined for nine national championships and have met three times in the playoffs. Georgetown won the first two meetings on their way to national championships but Carroll won the last meeting in 2002 in the finals. A Tiger's victory in Montana and they will play for the NAIA National Championship in Rome, Georgia on December 17th.

"To be the best you have to beat the best and Carroll College is the defending national champion." Kyle commented. Weather may be a new experience for Kyle on Saturday. Helena, Montana is expecting "significant accumulation" on Wednesday and the temperature

Kyle's mom, Sharp teacher Keri Pettit proudly pointed out, "Kyle is a leader. As a senior in high school he played on a team that dressed less than 20 players. He now leads his college team to an undefeated season and the final four. Amazing.'

Kyle echoed his mom's comments about his ride playing football. "From being a member of the PC Wildcats' team that started the program and never winning more than six games to college and undefeated season with double the wins with no losses is crazy."

He was recently named to the All Mid-South Conference First Team as well as a member of the All-Academic Team.

The accolades have been pouring in for the PCHS alum who was a founding member of the Wildcats football program since he first stepped onto the Tigers' football field. Message from Isiah 53-3 read by Noah Whitaker.

The two most important people in the world. First, Jesus and second is ourselves. Bro. Joe spoke today abou the Man, mission, the Master, his meekness, the mediator, the Messiah, and the message. The man is Jesus Christ. He is the man of sorrows, who knows all. The mission is the will of His Father. The Master is Christ, the Great I Am. His meekness is a sigh of might. He is the mediator; the go between. You and God. He's the Messiah here to bring us the message. We are blessed, indeed! We are blessed to have a great preacher, his good wife, loving friends supporting and caring for each other, plenty to eat, shelter, and to top it all off we have an awesome God who holds us in his loving arms. We are rich beyond compare.

Several went to the Cooperative of Churches Thanksgiving service to hear our own Pastor David speak a stirring message.

The ladies had a wonderful Thanksgiving service for their meeting last Friday evening. Many happy tears were shed.

Please continue to support our Relay for Life team as they strive to reach their goal.

The choir is working on several songs for the Christmas season. Also, play practice has begun, this will be an entertaining and fun play for all. We hope you will come and join us during this season. We have a great spirit here at Butler United Methodist Church.

### Have A Great Day!

Falmouth United Methodist The frenzy of the Christmas

season has begun. At each onset of this time of year I typically hear people comment that they want to be more on top of things and not get caught-up short at the last minute. Some thrive on the chaos; others despise it. Some hearts are really warmed by giving; others are more Scrooge-like. Some wish the season would last longer; others can't wait for it to be over.

If only we knew the secret of the Season. Several years ago, Jimmy Van Heusen wrote the words and music to a song called "The Secret of Christmas." In it he reveals what he believes is the secret: "It's not the things you do at Christmas time, but the Christmas things you do all year through."

Wouldn't it be wonderful to carry the spirit of the Christ-mas se throughout the year! What's stopping us?

### Falmouth Wesleyan

Who has been the largest toy distributor in the world over the last thirty years? I asked some people this question and the responses were; Walmart, Kmart, Toys R Us, and Family Dollar stores. No one guessed the correct answer, which is obvious. It is McDonald's. Their happy meals distribute twice as many toys each year as the second place distributor

The same question can be asked about sharing the Gospel of Jesus Christ. What method reaches more people? The internet, television, radio, books? But the same method used in the New Testament is still the best today. "Word of mouth!"

Nothing is more effective than to literally tell a person about Jesus Christ and show them how He can touch their lives. Let us find someone who does not know Jesus Christ and not only tell them, but show them how He can touch their

### Morgan Christian

We hope you all had a blessed and safe Thanksgiving!

One thing I am thankful for is giving people. I recently was introduced to a gentleman at Howard's on a Friday night who offered us one of his handmade honey dippers. He also gave my wife a wooden thimble he had made with a cardinal painted on it. I don't know much about this man, but I have a suspicion that he knows a bit about the way God's Spirit works. His gift of craftsmanship and giving is a beautiful thing.

We all have a gift, but are we sharing it? When we share our gifts with God and others, we are drawn to a deeper joy and meaning than if we only keep our gifts to ourselves. Thanks to Steve and Lois Work for washing the siding on the parsonage! And thanks to Faye Godman for organizing our shoebox collection. We delivered 60 boxes this year.

In Hebrews 6:18 and 19, it says, we have an anchor of hope for our soul. Romans 15:4 says that through the Scriptures we have hope. 1 Peter 3:15 tells us we are to always be ready to give others a reason for our hope with meekness and fear.

Do you have hope? Do you need hope? Jesus Christ is our hope as Romas 15:13 says. Don't go into the Christmas season for 2011 with no hope.

Let God give you His hope today! We care, Jesus cares about you! God bless you!

## New Hope Church of Christ

What would your marriage be like if you only showed your love for your spouse on your anniversary? How would your relationship with your parents be if you only said thank you on Mother's and Father's Day? Would your relationship with your child be a good one if you only did something good for them on their birthday? In each case, the relationship would suffer if we only expressed love and thanks for one day out of the year.

Thanksgiving may be over but that attitude should not be over. God bless us each day with food, water, oxygen, and more. We should not say thank you just one day out of the year.

Instead, that attitude should be a part of our lives every day. Are you still thankful? Have you expressed that to God today?

Bro. Don's message Sunday was taken from Hebrews Chapter 11. "Building Faith through God's Word." How do we look at God's Word, is it like a bitter medicine that is hard to take but very beneficial, or high fiber diet, full of nutrition but dry and not very exciting. On, Sunday, November 20, Bro. Brad's message was "The Power to Work Together" from Philippians 2:14-16 We pray that everyone had

safe travel during Thanksgiving and had a great time visiting family and friends. Being thankful has become more scarce in our modern vocabulary. Yet, God has done so much for us and all of which has been undeserved. If you have accepted Christ into your heart as your Lord and Savior, you can be thankful for victory over death. God's word tells us that all who are truly saved are one body in Jesus Christ, which is the church. When we are walking in love and unity of the Holy Spirit, we will not judge or be divided from our fellow brothers and sisters in Christ. Sometimes we don't always agree with one another, but Jesus wants us to love our neighbors as ourselves. All members of a church are important. No matter what duties you serve, but we all must work together to continue the Lord's work and reach out to the lost to tell them what our Savior has done for us. Are you thankful for what Jesus has done for you?

Ephesians 4:4

There is one body, and one Spirit, even as we are called in one hope of your calling.

Most human beings like to see themselves as exceptional and unique. In our own eyes, at least, we're

each one of a kind. We're much more alike than we are different. We all have a unique mix of God-given talents and abilities. Our need for the forgiveness of sins is our biggest similarity.

Everyone has declared independence from our Creator. We've tried to live as if God didn't matter all that much. We've lived as if we matter most of all. Into the middle of our messes, Jesus descended. He became a true human being. He grew up with all the temptations, pains, and problems we ourselves face – vet he

remained faithful to God, fully obedient to him. Then he died a cruel death in our place, emerging triumphant over death itself. Looking for the Savior? Join

raised His arms and died.

Bro. Hefner spoke from Philippiams 2:12-18, "Lights in the World." Sometimes we forget that God is everywhere and knows ALL things. He is listening to us and watching; but still we forget and allow ourselves to slip into sin. The world is full of sin and darkness. Christians are to be lights shining in the darkness so that others may want to find Jesus.

Colon cancer is the 2nd most prevalent, deadly cancer for both men and women. There are no early symptoms. It's estimated that half of all colon cancer deaths could be prevented with proper screening.

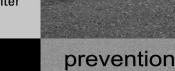

Harrison Memorial Hospital, an affiliate of the UK Markey Cancer Center Network, provides gastroenterologists Dr. Antonio Bosch and Dr. Luis Peña for diagnosis, experienced surgeons Dr. Charles Allran and Dr. Karl Schulstad for diagnosis and surgery, oncologist Dr. Qaiser Niaz for treatment, and nurses certified in chemotherapy/infusion therapy.

Talk to your physician about scheduling a colon cancer screening, or call HMH at (859) 234-2300.

## 2012 Home garden starts now

You may be delighted to put gardening behind you for the season, but fall is the time to manage and prevent disease in next year's garden. Summer crops may still be standing, even after being killed by heavy frosts and cold temperatures. At this time, you can take preemptive measures to help ensure a successful and bountiful garden

Cleaning things up in the fall can help cut back on disease in the following harvest season. Many pathogens responsible for diseases commonly seen in home gardens can overwinter or survive between crops on equipment and plant residue. Here are tips to prevent the spread of disease and be ready for the next growing season:

Remove old plant debris and trash from the garden or greenhouse and burn or bury it. Thoroughly clean tools and equipment and sanitize with disinfectant. (This is also a good time to oil shovels and other blades to

Turn dead plant matter under as soon as you are finished with the garden. Several plant pathogens can survive in these residues during the winter, and they can threaten next year's crops. Plowing them under now allows more time for plant matter to break down and the pathogens to die.

Rotation is another powerful tool that should be implemented to prevent disease. Rotation slows the buildup of pathogens in the vegetable garden, preventing problems in the long run. For best results, avoid planting the same or closely related crop species in the same place more than once every

three years. Even though spring is months away, start thinking about what you'll grow and where it will go in the garden. Making notes of variety, placement, and yield from the past season while it is fresh in your mind is especially useful, since it is easy to forget the details over the long winter months.

Also, start mulling over the varieties you are likely to plant. Resistant varieties can significantly reduce or eliminate damage from disease and can allow a gardener to lower (or possibly eliminate) use of fungicide for a particular crop. Do keep in mind that resistant varieties do not eliminate disease. Consult your seed supplier or catalog for more information.

A garden does take planning and careful consideration, but successful disease management begins with the few simple steps outlined above. If you start now, you'll have built a strong foundation for a successful disease management program in your home garden.

## 4H beekeeping essay contest

The topic for the 2012 beekeeping essay, sponsored by the Foundation for the Preservation of Honey Bees, Inc., is "the results of honey bee pollination in my community." Active 4-H youth can compete to win three awards, at amounts of \$750, \$500, or \$250. 4-H'ers are encouraged to consider the scope of plants, food crops, trees, habitats, and animals that are positively impacted by honey bee pollination.

Beekeeping is an important pursuit, a part of the food chain that is often taken for granted. However, it is critical to the health of the worldwide agricultural system and the recent colony collapse has been cause for concern.

The National Honey Board, honey.com, provides the following facts:

## **Importance of mealtime at home**

The approaching holiday season reinforces a truth about eating: Dining at home with family and friends is rewarding, fun, and enjoyable. In the coming year, consider making, cooking, and dining at home a priority in your family. It controls food costs and helps with weight management, and it brings a family together. Research shows that having

regular mealtime can improve the health of children, help with their social and emotional development, and help them do better in school. In the midst of a hurried world, the investment in family mealtime is well worth the time and effort. Healthy habits, including con-

trolling portion size, eating only one portion, and choosing and cooking healthy options help adults and children control weight and it increases consumption of nutrients necessary for good health. Children who eat at regular meal times consume more fruits and vegetables and fewer fried foods and sodas.

One way to make cooking and eating at home easier is to assign tasks. Involve your whole family by getting them to participate. Assigned tasks (helping to plan menus and shop, setting the table, and clearing up after the meal) shares the workload and reinforces the idea that these daily tasks are enjoyable. Planning is another helpful

tool that makes cooking and eating at home easier. Follow a grocery list and keep staples on hand to make cooking easier. Use the weekends to prepare entrees, such as lasagna, stew, or other casseroles, that can be

stored or frozen for use during the week. Prep vegetables and meat in advance and review ingredients and recipes to be sure you understand the cooking procedure. These basic techniques will help you get your family's dinner on the table in short order. One trend, seen in many big-

CLOSED 12-1p.m.

city restaurants, that families can follow is "Meatless Mondays." Started by the non-profit initiative. The Monday Campaigns, in association with the Johns Hopkins' Bloomberg School of Public Health, Meatless Mondays encourages avoiding meat one day a week to increase nutrition, reduce your carbon footprint, and help limit climate change. For more on phenomenon, visit http://www.meatlessmonday.co Make Meatless Monday an

adventure for the family by choosing unusual ingredients and cooking techniques so they are less likely to miss meat. Focus on other cuisines, such as Thai, Indian, Italian ,or Mexican, that rely less on meat. For example, hearty meatless chili, home-made vegetarian pizza, a Thai noodle bowl, or mattar panner, an Indian dish of peas and cheese, make unusual and delicious meatless entrees.

## Gkristmas Parade

Miss Gracee Hutchison was the Little Miss Grand Marshall for the Christmas Parade on Saturday. Gracee is currently under treatment for all leukemia through Children's Hospital in Cincinnati. Allowing her and her family to lead the parade was a very special treat by the parade organizers. Our love and gratitude goes out to all of the special thoughts and prayers from the community for Gracee's recovery. Photo by Mitzy Fint Yelton.

## History is alive for students at Southern Elementary

The fifth grade students listened attentively to Ethan Smith, a Civil War performer who visited Southern Elementary on November 15. The program was provided through Kentucky Chautauqua, a statewide service of the Kentucky Humanities Council. Mr. Smith portrayed Johnny Green, a young Kentuckian who enlisted to serve with the Confederacy during the Civil War. He talked with the students about the struggles his character faced and about his experiences on the battlefield. The students really seemed to enjoy having history come alive for them.

## Children should be reading for pleasure

Have you ever been so engrossed in a book you skipped watching a favorite TV show, didn't hear the phone ring, or stayed up too late at night? Now that's a good book, and as anyone who loves to read will tell you, that's the best part of reading! Books are the way most teachers instruct their classes. But there's also a reason for young people to read for

The Commission on Reading contends that reading for fun teaches young people how to become strategic, skilled readers. They learn the difference between reading for a test and reading for pleasure. They learn when to read carefully or skim, ask questions, or consult a dictionary. Reading for pleasure is asset 25 of Search Institute's 40 developmental assets, the and they will have a far richer life. qualities, experiences, and relationships that help young people grow up healthy, caring, and

responsible. Research shows that young people who read for pleasure at least three hours a week (that's only 26 minutes a day) exhibit more positive than negative values. Only 22 percent of young people, ages 11-18, read for pleasure three or more hours a week, according to Search Institute surveys. But reading-whether it's for a grade or not-can open up a new world, transport you to faraway lands, bygone eras, or lives only dreamt of. Reading is important. It uses facts, figures, and emotions to both teach and inspire. Inspire young people to read for pleasure,

## Wildcats open season Friday evening

By: Sam McClanahan, Reporter

The Pendleton County Wildcats basketball team will begin its 2011-12 season this week as the team will host a pair of home games against Scott High and South Laurel.

The 'Cats took part in a pair of scrimmages to serve as a final tune-up for the season, starting on November 17 when the team squared off against Ludlow. The Wildcats were the aggressors on both ends of the floor, and came away with an impressive 44point win.

"We showed up to play and put forth a great effort," said head coach Chad Simms. "Offensively, we attacked the rim and our defense was able to create a lot of turnovers that led to easy baskets." The Wildcats were also able to win the battle on the boards, and Simms made mention of perhaps his club's greatest asset, scoring in transi-

Tve been telling the guys that I want to see them make plays, not necessarily run plays. When we get out in transition, I feel that we have plenty of guys that can make something positive happen for us.'

Last Saturday, the 'Cats faced Simon Kenton in the teams final scrimmage and were beaten soundly by the Pioneers. For every positive shown by the 'Cats against Scott, there were many glaring concerns shown against Simon Kenton. "We didn't show up, plain and simple.

We were out-hustled and outplayed in every aspect of the game. However, I was pleased with the effort shown by our reserve players. It gives me confidence in saying that we should be able to use a nine or 10 man rotation throughout the season,'

said Simms. Coach Simms went on to say that he expects the team to go through some early season growing pains, as many of his players will be adjusting to bigger roles on the team.

The 'Cats tip off the season AT 7:30 p.m. on Friday evening against Scott High, and will host South Laurel at 5:30 p.m. on Saturday.

## PCHS Ladycats kick off 38th District Championship

The first two years of Coach Scott Collins' tenure as Ladycats' Varsity Coach can only be described as a rousing success.

There have been three 38th District Championships in the 35-year history of the Ladycat basketball program. He added a fourth in his first year, 2009-10.

There have only been three Ladycat teams that won a game in the tenth Region tournament and advanced to the semifinals. He made it a fourth team in his second year, 2010-11, with a team that came one victory from being only the second team in school history to win 20 games

What to do in his third year? First, finding Ladycats to replace all the scoring, rebounding and experience that graduated last year.

Junior point guard Ashten Wolfe is one player that does return with a load of experience. She was the starting point guard on last year's tenth Region semifinalist squad and a sub on the 38<sup>th</sup> District Title team from two years ago.

Junior center Heather Jolley returns as a physical force in the paint on both ends and can develop as one of the top players in the region who can record a double-double every night.

Beyond Wolfe and Jolley, the rest of the team played minutes here and there, last year and will see their first significant action this year. Sharpshooters senior Kristen Smith, junior Bradi Boden, and freshmen McKayla Manor will keep defenses honest, while sophomore Taylor McClanahan is a versatile player who can drive to the basket or pop the jumper. Freshmen Isabella Hall will give the team additional ball handling and the ability to drive to the basket.

The Ladycats have taken two hits early in the season. Senior Kristen Smith had surgery between gold and basketball season and will not be ready for

the opening game vs. Bracken County. Coach Collins hopes to have her back by Christmas break. Tori Fitzpatrick who was penciled in as the main post sub off the bench has a fracture in her back and has been advised to take a year off and let her back heal. That would allow her to be at full strengh for her senior year of soccer and basket-

With a small rotation of players and lack of experience, Coach Collins sees some growing pains for the Cats early in the season. "Our new players are going to have a learning curve and it will take a while for them to start feeling comfortable with the things we will be asking them to do."

In the two scrimmages, a victory over Berea and a loss to Campbell County. Manor and Wolfe hit multiple three's in both games. Boden is a proven three-pointer shooter and Taylor hit an early three against Campbell County. Kristen led the JV in three-pointers made last season and her return will be a boost.

the depth of shooters Coach Collins has at his disposal, the Ladycat team record of ten made threes vs. St. Patrick in 2009 is in serious danger.

Against Berea, seven Ladycats dented the scoring column with all seven falling between five and eleven points. More of the same versus Campbell County, as six Ladycats ended up between four and nine points. A balanced-attack that will give opposing coaches fits as they cannot gear their defense against one or two players.

Freshmen Bailey Wanstrath who is the fastest player on the team and possible the whole region and Catlyne Nuckels who is another shooter may see some varsity action throughout the year and could develop into

key reserves. That 38th District Championship will be wide open according to Coach Collins. Harrison County won it last year but lost some key players to graduation, their head coach who moved onto Mason County and will not have the home court advantage as the district moves to Nicholas County's new gym. But they do return one of the top players in the region in Center Jordan Doram. Nicholas County also has a new head coach which will mean frequent scouting trips for Coach Collins and his coaching staff Marsha Caldwell, Lindsey Bray, and Keith Smith.

As far as the region, the Ladycats start the season off this Friday in the Bracken County Tip-Off Classic in Brooksville against Bracken County. The Lady Polar Bears have the best player in the tenth Region in Sara Sticklen and are one of the top four teams in the region. A definite challenge for the Ladycats opening game. Defending tenth Region champs Montgomery County is the favorite with Clark County and Campbell County ready to push them for the title. One question mark is Bourbon County. Several players who had successful years at Paris last year have transferred and will be playing for Bourbon County this year. It could vault them to top five status if old and new mesh togeth-

The first game of the season is actually the Lady Kittens (freshmen team) who host Mason County at 6:30 p.m. on Wednesday, November 30. After the Varsity Cats play Bracken County on Friday, they return to Brooksville at 5 p.m. on Saturday for a matchup vs. Covington Latin. They have their first home game vs. longtime rival Bishop Brossart at 6 p.m. for JV and 7:30 for varsity on Tuesday, December 6.

## Seniors eligible for Kincaid Longspurs scholarship

The Kincaid Longspurs, Pendleton County Chapter of the National Wild Turkey Federation, will be accepting applications for a \$400 college scholarship. Any high school senior (public, private, or homeschooled) with a minimum 3.0 grade point average may apply through January 1, 2012. Applicants' essays must describe his/her commitment to conservation and preserving our hunting heritage. The essays should hunting is important to him/her (or his/her family). Essays must be typewritten, double-spaced,

and should not exceed three pages.

This scholarship is set up to benefit a Pendleton County student who demonstrates a commitment to conserving the wild turkey and preserving the hunting tradition. The scholarship program is part of the NWTF's Five-Star program, making \$500,000 available each year to graduating seniors throughout the United States. Recipients may pursue any type of degree

they wish. Applicants for the scholarship are judged on their scholastic achievements, leadership abilities, and community involvement. The winners of the local chapter scholarship are then eligible for consideration of the state award of \$1,000 and finally, state winners are eligible for the NWTF's national scholarship of \$10,000.

"Supporting our youth's education through this scholarship program is just one way the NWTF can ensure we have the dedicated conservationists needed for the future," said NWTF CEO Rob Keck.

Since the program began in 1999, the NWTF and its chapters have awarded nearly \$2.3 million to college bound students through the program.

All completed applications must be postmarked or hand delivered on or before January 1, 2012, to qualify.
